

Driveway Scraper

MODEL DS96

FOR 20 HP TO 100 HP TRACTORS.

LEVELS GRAVEL DRIVEWAYS,

PARKING AREAS OR

PLAYING SURFACES.

Will remove washboard effect, fill in ruts, and does not create dips or swells. Front blades cut down high spots moving material to wings. Wings catch material and channel it across full 8' width, filling in any low spots.

STANDARD FEATURES

- Will fit category I or II three point hitch.
- Steel blades on front & back are 1/2" thick and reversible.
- 8' wide, weighs 400 lbs. Extra weight can be easily added.
- Scraper has a "ski-nose" front which keeps the front of the scraper from nose-diving into soft material when unit is in the "float" setting.
